INTRODUCTION

The following is a compilation of GOTV ideas and activities that emerged during the COVID pandemic requiring social distancing as well as during what we remember as normal in-person times. There are many, many good ideas, materials, events, activities that Leagues have created, organized, and used to astonishing effect.

For ease of reference, we've organized them by the target audiences that you may choose to reach, and have included who, how and what materials can be used to help you reach them. These lists are in no way meant to curb your own creativity! The groupings, which have some overlap, include:

Districts with Low Voter Turnout	Seniors
Youth Vote – High School	Voters with Disabilities
Youth Vote – College and Young Adults	General Public

Most importantly, we have listed experienced League contacts who have worked on and achieved success with their efforts, learning along the way and ready to share what they have discovered. They stand ready to help you plan and implement your goals. We have also a section on Sample Materials: What and Who Created Them – in case you would like to see samples of what other Leagues have done.

As a fitting conclusion to the Toolkit, on page 23, we have included a Voter Services Metrics Report Form. You will notice in many of the Target Audience sections, we have suggested how data about your efforts can be collected and measured – not only for your own internal review, documentation, and sharing, but because of their usefulness in securing grants *and* of course, keeping us informed at LWVNY! This Form will help you to track, compile, and report the results of your efforts and can easily – and most wisely - be completed at the conclusion of each activity.

Diversity, Equity and Inclusion (DEI)

In planning and implementing these activities to encourage people to vote, Leagues should ask a few questions to ensure that they are including and reaching out to all people in their communities.

- Who is involved and how diverse is the group planning and implementing this activity?
- Are key stakeholders meaningfully included?
- Is this work that impacts a group or community? If so, is their voice represented?
- How diverse is the group of decision makers? Is it diverse enough?
- Who will be impacted by this activity?
- Does this help us meet the needs of underserved voters?
- Have we considered various, specific marginalized groups and how they might be impacted?
- How might this be perceived by others?
- Does this align with our vision for an equitable and inclusive organization?
- How is equity addressed?
- How does this impact the League's culture?
- What changes could be made to make this more equitable?

Districts with Low Voter Turnout

As indicated by the many Leagues who have worked to improve turnout in urban and suburban districts, this can be a rewarding campaign. There is an opportunity to form long-lasting alliances with local groups as well as to create measurable change among voters. As noted below, there are a wide variety of organizations to work with who will not be short of ideas to make the effort a success. A starting place to identify possible districts is the local Board of Elections (BOE) or other governmental agencies where you can obtain voter turnout data and benchmarks from previous elections to enable measurement of any increments.

Collaborators:

- Community organizations including civic groups, church groups, libraries, social groups, disability organizations, colleges - sororities or fraternities in the area to spread the word, housing authorities
- Local newspapers, community news websites and Facebook pages
- Schools – Elementary through High - for 16/17 pre-registration and take-home materials for parents
- Specific organizations: Meals on Wheels, Food Banks, NAACP chapters, Catholic Charities, YM/WCAs, NYCHA/Housing Authorities
- Chambers of Commerce
- Festival and event organizers of local celebrations
- Senior centers who may also be able to help addressing postcards
- Youth interns/volunteers who can create social media announcements and videos for neighborhood kids
- Retail stores – dry cleaners, pharmacies, bodegas to hang flyers, posters

Materials:

- Postcards, English/Spanish flyers, doorknob hangers, plan-to-vote worksheets, each featuring election dates/times, and deadlines, sites, voter registration info and QR for 411 info and 474747 text address
- Social media announcements and videos about the importance of your vote
- Bus wraps, posters for bus and other transportation stops
- Posters for retail stores, town offices
- Digital and fixed marquee signs on temporarily dark movie theaters
- Public Service Announcements (PSAs) on local radio stations in English and Spanish

Events/Activities:

- Motorcades with car signs
- Neighborhood Parades
- Local radio/tv stations with PSAs and interviews
- Sidewalk chalk messages about voting
- Flyers, pamphlets for food bank packages

- Provide materials to collaborating groups for distribution – churches, schools, etc.

- Equip local/urban transportation companies with flyers with QR stickers to 411, like “First Mile, Last Mile” to give to patrons
- Photo ops – with cut outs and “I Voted” stickers, a Frederick Douglass cut out!
- Postcard and Doorknob Hanger campaigns
- VR/Election info for EI/Hi students to take home to parents
- Phone Bank Calling

Ways to Measure/Collect Data:

After election results have been certified, any incremental change can be calculated in the districts you have targeted by contacting the original source of your data to get those district results. While increase in voter turnout is going to be the result of many different factors and the efforts of multiple organizations, the Voter Service Metrics Report (see page 23) can help you measure and record the impact of many of your efforts.

Youth Vote – High School

Youth-vote outreach can achieve a multiplier effect that is wonderous. When organized and supervised, enthusiastic teenagers can create and post messages/videos on their Instagram, Facebook or even Tik-Tok accounts, with a saturation rate that is astonishing. With the passage of legislation that permits the pre-registration of 16- and 17- year olds, the opportunities to interest and engage new voters have increased exponentially. Even younger kids can also help engage each other and prod older voters with their social media messaging and videos. School age kids can be asked to take election information home from school to otherwise distracted parents. And competitions within and between schools can stimulate interest and participation.

Seniors

As Timothy Noah wrote in his *The New Republic* column on November 25, 2020: “America is Run by Geezers: In an election between two septuagenarians, the elderly dominated turnout like never before—more than offsetting a surge in the youth vote.” The age group 65 and over votes early and consistently and is not usually considered a critical target for GOTV campaigns. However, there are many seniors who can benefit from encouragement and help in getting to the polls, notably those in assisted living facilities, nursing homes and those who have mobility issues. Absentee ballots can make a material difference in voter participation. Seniors can also be a great resource to help GOTV for others by asking them to participate in writing/addressing postcards, and stuffing and stamping mail pieces.

Collaborators:

- Senior centers
- Hospitals
- Churches
- Adult Homes
- Family-Type Homes

Ways to Measure/Collect Data:

Request a count from collaborating organizations of:

- ~ the number of absentee ballots completed and posted that the League handed out
- ~ the number arranged to be transported to the polls
- ~ the number of flyers distributed by Meals on Wheels, for example or by other organizations serving seniors.

Voters with Disabilities

This is a group of voters whom Leagues can engage in a variety of ways, including encouraging disabled voters to exercise their right to vote, educating them about election choices, providing usable/customized absentee ballots, securing transportation to the polls, and providing training on Ballot Marking Devices. Look for opportunities to partner with state and affiliates of national organizations that would benefit from the resources that the League can provide.

Important Information for New Voters in 2020

ID NEEDED FOR VOTING IN NEW YORK STATE

Federal law requires persons who register by mail and are voting for the first time to provide identification, either on the Voter Registration Form or in person at the polling place. Identification usually means a current NYS driver's license or the last four digits of your Social Security number. If you do not have either of these, you may provide a copy of a valid photo ID, or a current utility bill, bank statement, government check or some other government documentation that shows your name and address. Bring your ID to the polls, especially if you registered by mail and are voting for the first time.

EARLY VOTING

New Yorkers now have an additional option to cast their vote in primaries and the general elections. Special polling sites and varying hours are announced by your county's Board of Elections. Voters will continue to have the option to cast an absentee ballot if they choose to do so.

NEW VOTING EQUIPMENT

New electronic poll books (for voter names at check-in) were first used in 2019 and are now in use at all NYS polling places for both early voting and on election day. Voters with disabilities may request to use a ballot marking device to vote.

ABSENTEE BALLOTS

Registered voters who cannot make it to the polls on Election Day because of occupation, business, studies, travel, imprisonment (other than a convicted felon), illness, disability and hospitalization or residence in a long term care facility, may vote by absentee ballot. To be sure your request is processed, ask the Board of Elections for the application form at least 4 weeks before Election Day.

NEVER LEAVE THE POLLING PLACE WITHOUT VOTING!

If your name is not on the list, ask for an affidavit ballot!
